Dear Mr. Emrick:

With reference to your request of our Mr. J.V. O'Brien for price information on No. 4 and No. 6 Fuel Oils in the event you decide on a heavy fuel oil as a heating medium for the new high school which is being erected in Leesburg, we are pleased to advise our present price is as follows:

On No. 4 and No. 6 Fuel Oils our consumer tank car price in effect on date of shipment f.o.b. Baltimore, Md., plus the actual transport truck freight from Baltimore to destination.

Our today's consumer tank car price for Esso No. 4 Fuel Oil is \$3.19 per 42-gallon barrel (7.60¢ per gallon), and Bunker "C" Fuel Oil (No. 6) is \$2.25 per 42-gallon barrel (5.36¢ per gallon), and the transport truck rate from Baltimore to Leesburg is 1.29¢ per gallon, and while 3% transportation tax is applicable to this haul, it would not apply to a shipment going to a public school. This rate applies to both No. 4 and No. 6 Fuel Oils.

5.36

\$6.65

Terms are net thirty days.

We appreciate your inquiry and if you use heavy fuel, we hope to have the pleasure of supplying your requirements. In the meantime, if you need any further information, do not hesitate to call our industrial representative, Mr. J.V. O'Brien, or this office.

Yours very truly,

Gentlemen:

It has come to our attention that you are currently requesting bids on your requirements of approximately 35,000 gallons of #2 Fuel Oil and approximately 75,000 gallons of #6 Fuel Oil, and in this connection we are pleased to offer for your consideration at 9:00 A.M. on Monday, June 13, 1955, our quotation as follows:-

GULF #2 FUEL OIL - for minimum single tank wagon deliveries of 100 gallons or more, our established consumer tank wagon market price in effect on date of delivery, currently 14.15¢ per gallon. This price is inclusive of a .50¢ per gallon voluntary allowance which is subject to removal at any time without prior notice.

We regret that we are not in a position to quote on your #6 Fuel Oil requirement since deliveries of this product would have to originate from our Philadelphia, Pa. Refinery and consequently we would be unable to give you a competitive and economical price.

Our terms of payment for #2 Fuel Oil will be net 15th proximo.

This price is exclusive of any applicable tax, but includes all delivery charges to your facilities at Leesburg, Virginia.

We would appreciate your considering our proposal favorably, and we look forward to the pleasure of supplying you with our product.

Gentlemen:

It is my understanding that your firm buried the gasoline tank at our Loudoun County High School. I called your local representative last year and was told the tank was 1,000-gallon capacity. This month on two different occasions the local dealer placed more than 1,000 gallons in this tank. There must be some error. Please advise us the correct capacity of this tank.

Very sincerely yours,

Clerk School Board
