Mr. A. G. Richardson  
Department of Education  
Richmond, Virginia

Dear Sir:

Your letter of the fourth is acknowledged and much appreciated.

I feel sure that your visit has been of much help in our situation.

We have a further communication from Attorney Houston to present to our Board on May 14th, but it does not cover anything new.

We understood that the property deed can legally have a reservation clause in it but our experience with many problems relating to this indicate that it is poor business for the school board to accept a donation and make an investment with ten times as much or more under the condition that the title is not entirely free.

Very sincerely yours,

Division Superintendent.
