

## Average Attendance at 10-Year Intervals

Year	Average Attendance
1889-90	2792
1899-00	2429
1909-10	2464
1919-20	2871
1929-30	3393
1939-40	3628

-----

## High School Enrollment at 5-Year Intervals

Year	Enrollment
1914-15	382
1919-20	406
1924-25	487
1929-30	540
1934-35	718
1939-40	891

The increase in high school enrollment from 1929 to 1939 was 337. School facilities for these additional high school pupils would require 14 high school teachers and a building with 16 class-rooms, auditorium, and shop costing at least \$120,000. The annual cost would be over \$20,000 for operation.
