*Check (✓) the proper information in columns 15 to 24 inclusive.
 §If the census is taken during the summer vacation check those attending the previous session.

†In securing information on children in the family be certain to inquire if there is a child (or children) in the home with physical handicapping conditions, or educationally retarded. If a child is physically handicapped put check mark after name in Column 23. If educationally or mentally retarded, put check mark in Column 24.

A child is considered to be educationally retarded if he is two or more years below the grade that he would ordinarily attend at his age. For example, a child who enters the first grade at six years of age should be in the second grade at seven, and in the third grade at eight, etc.
