Mr. Richard Lane

Lincoln, Va.
Dear Mr. Lane:

We have looked over the record of Elbert's work at the Carver school very carefully and it is very clear that he can not do the work of the 8th grade at Douglass high School. For this reason he can not be promoted to the 8th grade.

I note that Elbert is over 18 years of age. It is my suggestion that you do not send him to school after this year because it is not likely that he will benefit any from further school attendance.

Very sincerely yours,

O. L. Emerick
Division Superintendent

Dear Mr. Smallwood:

Your son, William N. Smallwood, has not met the requirements for promotion from the seventh grade at Lincoln School. After examining his record it seems very certain that he has reached the point wherein he will not benefit from further school attendance. He has no interest in learning.

I recommend that you make special request through Mrs. Cockerill that he be excused from further school attendance and that you find work for him to do.

Very sincerely yours,

O. L. Emerick

We find that your son, Raymond Pollard, is not able to learn anything in the public schools. We also find that he is subject to epileptic seizures.

We do not think that Raymond should be in school any more after this year. As the school can do nothing for him, I am asking that you withdraw him voluntarily and do not send him to school next year.
