

Loudoun County School Board
Leesburg, Virginia

Attn.: Mr. Emerick

Gentlemen:

At the regular Parent-Teachers Association meeting of the Hillsboro school which was held on Friday, Sept. 18, 1953, it was unanimously suggested that the School Board reconsider their action on the new school bus route which they established for this school. We refer to the new schedule on Route 690. This action was taken due to the long hours which have been imposed on the children who live on the the other routes of the same bus, #9.

The P.-T.A. would like the School Board to consider the recommendation that the route be changed, not to include Route 278, but that the bus should go down no 690, pick up the children, then back up and turn around and return to Hillsboro. In this way, the route will be shortened but will include all children who live one mile beyond the school. Also, in this way, the length of the school day for children who live in Neersville will be extended by a shorter period of time.

Your prompt attention to this matter will be appreciated.

Sincerely,

Grace F. Baber

Grace F. Baber, Secy.
