NOTES: (a) Amounts entered in column 19 should equal the totals of amounts entered in columns 12 to 18 inclusive, and multiplied by rate of taxation should give amounts entered in column 21.
 (b) Give simply the rate of District School Tax for each district in lines devoted to "District School Levies" and County School Tax in the line containing entry "For County School Levy." Do not add both together in any instance. No totals should appear between red lines at bottom of table unless the assessed value for county school levies is actually the sum of the assessed values for district levies; be sure to give the rate of county school tax in column 20. See column 24, Table 6.
 The City Superintendent is asked to give the assessed values and in column 20 the rate which would be required to produce the total revenue provided no appropriation were made by the Council. Under Remarks he should give the actual rate of levy in case the revenue is derived partly from a levy and partly from an appropriation.

NOTE-(x) Do not include grammar grades if taught in same building. No high school can have more than four grades. If high school and grammar school are in same buildings these separate schools should be reported both under "a" and "b" or "a" and "c". Has this been done?

EXPLANATIONS-(a) Found by dividing the aggregate amount of money paid and to be paid to the teachers of the school for services during the year, by the number of pupils on the roll, and dividing the quotient by the number of months the school was taught. (b) Found by dividing whole cost of school in same way.
