COUNTY.

## ANNUAL REPORT of Superintendent of Schools for Year ending July 31, 1889.

The Superintendent will answer briefly the following questions:

1st. How can the efficiency of the Public Schools of your county be improved?

Ans. Such a general increase in the salaries of teachers as would secure the permanent services of well-trained and experienced teachers. We are compelled to depend largely upon the employment of untrained youths who teach for a little while in order to obtain funds to use in preparing for other avocations. Two of our districts need more money for buildings & for the extension of the school term than can be obtained under existing laws.

2d. Date of Annual Meeting of County or City School Board for reviewing the work of 1888-9.

Ans. August-13<sup>th</sup>

3d. Were the Accounts of Treasurer laid before the County or City Board and duly examined?

Ans. They were carefully examined by the Co. Supt. aided by the Dist. Clerks and the results were reported to the County Board.

4th. Was their condition satisfactory?

Ans. Entirely so - very neatly and accurately kept.

5th. Were the Records of the District Boards all laid before the County Board and duly acted on according to law?

Ans. They were examined by the Supt. who reported to the Co. Board.

6th. What was their condition as to accuracy and neatness?

Ans. All accurate. Several of them not very neat.

7th. Report any irregularities which may have been discovered in the proceedings of any Board, together with such action as was taken by the County Board in regard thereto.

Ans. No irregularities were discovered, and the County Board was not called upon to adjust any difficulties. Our Trustees are men of excellent character and of fine business qualifications, but the work would be more promptly and efficiently attended to if the Trustees were paid for their trouble.

8th. Do your District Boards hold regular meetings, and how often?

Ans. They meet irregularly - as often as business requires.

9th. State the number of Teachers' Institutes held during the year, and the number of teachers present at each, and whether for white or colored teachers.

Ans. None. The law forbids holding Institutes during the session, and nearly all of our teachers, who are competent to do institute work are absent from the county during vacation.

10th. Were the Accounts of District Boards compared with those of County Superintendent by the County Board, as required by Section 134 of School Law, and what was the result?

Ans. The Dist. Clerks, the Treasurer, and the Co. Supt. brought together and compared all their accounts and vouchers. They corresponded in all respects.

11th. Were all of your teachers supplied with the Virginia School Register, and were these Registers all returned at the close of the session to the District Clerks, as required by law?

Ans. Yes, except two or three teachers of new schools for whom Registers though ordered through local dealers were not obtained. I am sure that all registers were properly returned though two of the clerks fail to report under that head.

NOTE.—If Tables 4 and 5 have been correctly filled, the total in Table 4 will just equal the Grand Total in Table 5.  
REMARKS.—Of course the sum paid to or received from other counties will not be counted twice by the State Department in making up the aggregate for the State. In filling out Tables 4 and 5, the Superintendent will have to obtain his figures chiefly from the books of the Treasurer.

EXPLANATION.—TABLE No. 6 is intended to show the cost of the system for current expenses only for the year ending July 31, 1889, and should include both what has already been paid and what is still due for the year. [a] On line "To other than Public Funds," report amount paid out, under the amount already paid and balance still due for the year ending July 31, 1889. [c] Found by dividing the whole amount paid and to be paid TEACHERS, from all sources, for services rendered during the year, by the number of pupils enrolled, and this quotient by the average number of months the schools were taught. [d] Found by dividing total cost to all sources by number of pupils enrolled, and this quotient by the average number of months the schools were taught.
