NOTE-(x) Do not include grammar grades if taught in same building. No high school can have more than four grades. If high school and grammar school are in same buildings these separate schools should be reported both under "a" and "b" or "a" and "c". Has this been done?

EXPLANATIONS-(a) Found by dividing the aggregate amount of money paid and to be paid to the teachers of the school for services during the year, by the number of pupils on the roll, and dividing the quotient by the number of months the school was taught. (b) Found by dividing whole cost of school in same way.
