

February 9, 1931

Middleburg, Virginia

Lowdown County School Board.  
Huntmen.

I am quite in harmony with the parents and friends of the St. Louis School. The enrollment at present is 71 and there are other families to move into the village soon. The crowded conditions makes it impossible for me to give the children as much attention as they need and naturally they are not getting so much out of

the work as they should.

I feel that the patrons are willing to do their part in getting an extra person and another teacher.

I am doing my best and believing makes the present situation.

Hoping that your answer to the patrons request will be in the affirmative, I am,

Yours truly,  
Lauria Cook
