TO: Division Superintendents
FROM: Eliza H. Trainham, District Supervisor, Home Economics Education
SUBJECT: Joint Meeting, Home Economics and Agriculture Teachers

During my recent visits to schools, a number of questions have been raised by the home economics teachers and others regarding the intent and action of the recent special session of the General Assembly, the objective of the referendum on January 9, 1956, and the purposes of the proposed constitutional convention.

Supervisors of vocational agriculture education have faced this same situation. Since this is a matter of such vital importance to schools and since recent information in regard to the above points has been made available, we believe it important to have a joint meeting of agriculture and home economics teachers to discuss information made available.

Arrangements have been made to hold such a meeting on December 22, 1955 at the Clarke County High School Library, Berryville, Virginia, at 2:00 P.M. We sincerely hope that you will approve the attendance of your home economics teachers in the schools listed below. Expenses incurred by home economics teachers in attending this meeting will be fully reimbursed from vocational funds. However, teachers are expected to use the least expensive means of transportation and to travel together by car whenever possible.

We hope that you can attend this meeting with your home economics teachers and you may wish to invite the principals of the schools concerned. Because of the limitations in time, copies of this letter are being sent directly to home economics teachers with the request, of course, that they seek your approval before planning to attend.
