

November 28, 1945

Memorandum for
Lucas Phillips
Edward Smith
Asa Moore Janney

I believe that our discussion last night was better organized and better handled to get effective results than any of the others. It strikes me that the three ideas we emphasized need bearing down on in any further discussions.

- 1 - The comparison with the bank
- 2 - The condition if the Federal-State relations were similar to the State and County as the present case and
- 3 - The development of the thought that we do not trust the Board of Supervisors.

Very sincerely yours,

O. L. Emerick
Division Superintendent
