Promises of help at the Purcellville school grounds on Saturday of this week indicate that there will be a big force on hand and that this will be another day of history ~~making~~ making for the school. Every preparation has been made to feed the hungry men who ~~xxx~~ come out to work. A special invitation to all of the men patrons has been sent out by the teachers but all workers will be welcomed even if not invited.

-----

A conference of high school principals was held in Purcellville on Saturday last and was attended by all except one principal in the county.

A number of topics pertaining to the general problems of high schools were discussed.

The principals decided to continue the organization of the ~~athletic~~ athletic association next spring on the same basis as last year.

A motion was adopted to recommend to the county teachers' association that the schools participate in the public speaking contests which are directed by the University of Virginia.

Means of bringing the work of graduates from the high schools up to a higher standard were discussed but no definite conclusion was reached.

All of the principals <sup>present</sup> were entertained at lunch at the home of Supt. and Mrs. O. L. Emerick.
