I certify that the above report is correct.

Sept-10th, 1898.

E. M. Sherrade

Superintendent of Schools.

EXPLANATIONS—Table No. 3.—[a] Found by multiplying average daily attendance by 100 and dividing by average monthly enrollment. [b] Found by dividing the aggregate amount of money paid and to be paid to the teachers of the graded schools for services during the year, by the number of pupils on the roll, and dividing the quotient by the number of months the school was taught.
