**Loudoun School Suit  
Dismissed by Court**

Special Dispatch to The Star

FRONT ROYAL, Va., April 23.—

An application for a temporary injunction to prevent payment for the Elgin tract, selected for the new consolidated high school for Loudoun County, was dismissed Saturday in Warren County Circuit Court by Justice Elliott Marshall.

The judge ruled that charges made by a group of Purcellville citizens that the school board had "exceeded its authority and acted corruptly" were not substantiated.

The injunction application, directed against the school board, the superintendent of schools and the treasurer of Loudoun County, also stated that the \$15,000 to be paid for the tract is excessive, the land is not suitable and it is not in the geographical center of the county.

Representing the school board were E. B. White and Howard W. Vesey, Leesburg attorneys. Albert F. Anderson represented the protesting citizens.

Loudoun County supervisors on April 10 appropriated \$15,000 to buy the lot, selected by the school board.
