

1 Mrs Jarey
Mr. Chairman, members of the London
Co. School Board Ladies & Gentlemen

The subject we are discussing
this morning is of more importance
than any of us realize.

The proper training of our boys & girls
whom we love so dearly should receive
much consideration & careful thought.
If we make a mistake it may be
of vital importance to our dear ones.

In my opinion, in locating an
institution of learning, one should
consider of first importance the
environment.

2.

Rebuild the school at L. and you will have the proper surroundings, where there is nothing to detract the attention of the scholars - The building will be on an ideal spot, close to a quiet religious neighbor and not in a busy, bustling town like P. ville.

The hearts of the Lincoln people are so large they can mother the entire enrollment of the L. H. S.

Their efforts are centered on one thing and that is the success of the L. S.

42)

Now I have lived & spent most of my married life in Pinilla - its people are dear to me thru old associations - but, I would not, for one moment, compare Pinilla with Lincoln in selecting a location for a school. But I would consider Pin - if I wanted to establish a business. -

We know L. is not a business market, but it is the proper place to locate a school -

Parcells - is a thriving town, the people are devoted to their business interests, & that is, as it should be.

It has been proven beyond the shadow of a doubt, by the enrollment, by the progress of L.H.S. - that it is one of the 1st in Londa Co.

Now shall the fruits of the labor of these people be taken from them, and given to Pville -

Shall it be taken from these people who have been tried & tested & not found wanting.

Shall it be taken from them, given to Pville - untried - a town so busy with trade and traffic it ~~was~~ hasn't the proper time to devote to such a school,

5) Then why not ~~is~~ ^{is} L. what L. can do - and it has proven it can run a school. -

Let P.ille keep its business interest

About 40 yrs. ago the people in the neighborhood ^{of L.} erected the brick bldg. now used as a graded school. -
> $\frac{1}{2}$ of the cost being pd. by them. ^{by the Dist.} ~~being paid~~
- This was the first public school in this part of the Co. where a student could obtain a higher education.

About 14 yrs. ago - This ^{same} bldg. was thoroughly renovated - the entire interior changed - at no cost to the Dist. -

6.-

17 yrs. ago thru the efforts of the people of C. the H. S. was built and Ch. have freely ^{then} decided ^{it} to the Dis - Or all ^{of} this to be counted as naught?

During the past 17 yrs. much equip. & many improvements have been added - still at no cost to the Dis -

Our Community League has expended not only dollars - but 100% of \$ for the upkeep of the H. S. -

Our League has ~~not~~ ^{yet} been ^{yet} asked $\frac{1}{2}$ one cent for membership dues -

7.

Every dollar we have spent we
have earned by our own efforts. -
This league has never had a
debt - and thank God it still
has a surplus in the treasury.

We have left from the disastrous
fire which demolished the H.S.
proper - ~~a \$5000~~ Dm - S. Cottage
that worth about \$5000 - that is,
including equipment - a workshop
~~worth~~ about 1500 - and ^{of a} a
foundation - 10 A of ground
The value of which can not be
estimated as a school site -
Then there is the income 20000

~~S. Hall~~
making in all - a considerable
total of \$20,000 - Now tell me
are you willing to take all this
from Lincoln?

You say, this school is fed
by P. ville - well now aren't
you a little selfish, to consider
your own town, before considering
the entire Dis. -

How much trouble is it to
trip into a bus - ride but -
 $1\frac{1}{2} + 2$ miles to Lincoln -

We must consider the ^{Southern} School

9) and S. M. sections of Mt. J. have
no H. S. what so ever - and if
the school is removed from S -
it will simply mean - the
education of the more needy
chil. of the outlying sections of
the dis - will cease with the
Graded schools -

It seems to me, we must
consider not only one section
of the D - but the entire D. -

Is it not the truth - if the
school is built in Prille
which is simply on the edge

of Mt. G. Dis - ~~to~~ and it is not built in L - which is nearer the center of the Dis. Is it not the truth, the H. Schools of Water - Hills - & R. Hill are to be close -

Now there ^{arises} a question in my mind, whether it is going to be any easier for the clin of R. H to come to P. - than it is for the clin of P. to come to Lincoln.

I have heard - if the bldg - is erected in P. the cost of

14
transportation is to be covered
by eliminating the bus from P-
and the bus from Ham -

So you are thinking that
the H. chin can walk to P-
and you are also thinking
that the chin. of L. are to
walk to P-. But you have always
contended that the Pindle children
could not walk to Lincoln. The Ham
chin & the L. children will not, they shall
not walk to Pindle.

Now then tell me
where the diff. in the cost
of trans - is to come in?

I appeal to the London
Co. School Board ~~to~~

I appeal in all sincerity,
to rebuild the school on the
old site in L. - where the 1st
model H. S. - was erected in
Londan Co.

The school - the graduates
lose so dearly

The school whose memory
is cherished so fondly by the
scholars of today -

Where the people - foster and
mother those children as
no other section would do,

13) When the community has
but this thought - the
advancement, the progress
The success of that H. S.

The Com - were no sacrifice
is too great for them to
make - when it pertains
to the H. S.

Where time + money are
of no value - when
Education is to be considered,

Grant - the people of
L. and the vicinity this

14 - one request - and they
will rebuild a school
which will be a credit
to L. Co -
